COMMSBOX ULTRA

Ultimate Emergency & Disaster Response Communication In A Box

COMMSBOX ULTRA

Introducing the **Kacific CommsBox Ultra** – an elevated version of our turnkey solution, designed to be a cutting-edge disaster-resilient communication solution. At the **press of a button**, the **auto-pointing antenna** on the CommsBox Ultra seamlessly and automatically connects to a satellite, offering internet connectivity across islands, mountainous regions and remote areas.

BE PREPARED. RESPOND FASTER.

In **emergencies**, communication is vital for an efficient response, but damaged infrastructure can leave operations and people vulnerable. Specially designed for **first responders, civil defence, police and not-for-profit organisations**, Kacific CommsBox Ultra offers a **portable, all-inclusive connectivity solution** to quickly re-establish communications.

FEATURES

- Detachable modules and wheel for easy transport
